

## What Is NBT™ Marine?

You have selected the exclusive vinyl product category available today in the Marine manufacturing industry. Our NBT™ Marine, represents the next generation protective coating for all your upholstery vinyl needs within the Marine market.

Nanotechnology is the science of manipulating materials at the atomic and molecular level to develop new or enhanced materials and products. We are the first coated fabrics manufacturer to use and offer this Nanotechnology to the Marine industry, employing Nano-Particles that offer you far superior performance characteristics in the vinyl product category.

## Why NBT™ Marine?

NBT™ Marine provides you with superior clean-ability - the toughest stains easily wipe clean

NBT™ Marine "Blocks" the vinyl surface from mildew and other microbial problems

NBT™ Marine has a Nano UV inhibitor that protects your vinyl upholstery up to three times longer than conventional finishes - maintaining and preserving the color longer than ever before.

NBT™ Marine forms a protective barrier against abrasions, grease, grime, sun tan oils, and even gasoline.

## CLEANING STEPS

1. Apply soap and water with a cloth/sponge, rinse clean with water - dry with clean cloth.
2. Spray V-Clean™ on a damp sponge/cloth and the vinyl surface. Rinse with water-dry with cloth.
3. Apply the NBT Clean wet wipe - rub and remove the stain.

### STAINING AGENT

### STEPS

Coffee/Tea, Hair Oil,  
Blood, Urine, Grape Juice,  
Olive/Motor/Baby Oil,  
Chocolate, Ketchup/Mustard,  
Grease, Crayons, Lipstick

1/2/3

Ballpoint Pen, Permanent  
Marker, Spray Paint
